

Pablo Javier Monticoli

Lead Consultant AI & Technology | Software Developer | Data Analyst
Jesus Maria, Cordoba, Argentina | +54 9 3525507920 | pablomonticoli@hotmail.com | github.com/PJMonticoli

PROFILE SUMMARY

Software Developer and Data Analyst with 3+ years of experience delivering enterprise solutions for U.S. clients. Currently serving as Lead Consultant in the AI & Technology service line at Allata, leading the design and development of AI-enabled, cloud-based systems at scale. Focused on applying Agentic AI, RAG pipelines, LLMs, and automation workflows to accelerate delivery and solve complex business problems. Strong foundation in full-stack development, Business Intelligence, ETL processes, and ERP customization.

WORK EXPERIENCE

Lead Consultant - AI & Technology

Allata | Apr 2026 - Present | United States / Remote

- Full-stack developer building AI-enabled solutions across diverse client tech stacks (Vue.js, Angular, Python, Django, Node.js, and more).
- Integrating Agentic AI, RAG pipelines, and automation tools (LangChain, LangGraph, n8n, Claude Code) to optimize delivery and solution quality.
- Mentoring fellow engineers, driving estimation accuracy, and strengthening client relationships within the AI & Technology service line.

Senior Consultant - AI & Technology

Allata | May 2025 - Apr 2026 | United States / Remote

- Delivered cloud-based full-stack solutions for U.S. enterprise clients, building and integrating components within established architectures.
- Applied AI tools and automation throughout the development process to optimize delivery and solution quality.
- Managed risks proactively and communicated clearly to both engineering teams and client stakeholders.

Software Developer & Data Analyst

Hotaka iKhodi | Oct 2024 - May 2025 | Barcelona / Remote

- Led Python/Django REST API and Vue.js frontend development; architected MongoDB data solutions.
- Optimized ETL pipelines, built Power BI dashboards, and developed custom Odoo ERP modules.

Full Stack Developer (Intern)

Jose Guma S.A. | Sep 2023 - Oct 2024 | Colonia Caroya, Cordoba

- Built enterprise applications with C#/.NET and Angular; managed PostgreSQL and SQL Server databases.
- Automated business processes and optimized internal workflows across the systems department.

TECHNICAL SKILLS

AI & Automation: LangChain, LangGraph, RAG, Agentic AI, n8n, Flowise, MCP, Vector Databases, LLMs (OpenAI, Claude, Gemini, DeepSeek)

Frontend: Angular, Vue.js, HTML5, CSS3, JavaScript, TypeScript

Backend: Python, Django, C#/.NET, Java, Spring Boot, Node.js, Kotlin

Databases: PostgreSQL, SQL Server, MongoDB, Supabase, Vector Databases

BI & Data: Power BI, Qlik Sense, Python (Pandas, NumPy), ETL processes

ERP & DevOps: Odoo (custom development & support), Git, Docker, Scrum, CI/CD

EDUCATION & TRAINING

Programming Technician - Tecnico Universitario en Programacion

Universidad Tecnologica Nacional - FRC | 2021 - 2023 | GPA: 8.57/10

Full Stack Bootcamp

Hotaka iKhodi | Jul - Oct 2024 | Spring Boot, Java, Kotlin, Vue.js, DDD, CQRS, TDD

Data Analysis Bootcamp (150 hs)

Jupi Digital | Apr - Jul 2024 | Power BI, Qlik Sense, SQL

AI & LLM Certifications

Udemy | 2025 - 2026 | LangChain, LangGraph, RAG, n8n, Flowise, MCP, Vector Databases, Prompt Engineering

LANGUAGES

Spanish: Native | **English:** Advanced - Cambridge B1 PET certified, currently attending advanced classes at English in Company Academy
